

FOR ALL MACHINES/WATER BOILERS

Heavy Duty Descaling Powder

Product codes & Pack size: BIO004 (1kg) BIO039 (10kg)
BIO006 (50g sachet)

Where to use: High performance descaler for stubborn limescale build up on machine parts and components. This product has been specifically designed to remove heavy deposits of limescale and soured milk in boilers, pipes and components in drinks dispensing machines.

Key Benefits v Competition

- Fast acting 2 in 1 descaling and sanitising formula
- Safer to use than corrosive alternatives
- High purity formula fully dissolves reducing machine breakdowns and service costs
- Can be used on site or in workshop
- Non corrosive
- Regular cleaning helps maintain beverage quality, prolongs machine life and can reduce maintenance costs

Usage/Dilution rates:

For heavy duty descaling 80g in 1 Litre of warm water. Soak for up to 2hrs.

For light duty descaling 30g in 1 Litre of warm water. Soak for up to 15-30mins.

Thoroughly rinse with clean water before re-assembly and use.
