BREWER CLEANING TABLETS

Performance Focus

Industry-leading research and development, combined with extensive testing ensures that our BREWER CLEANING TABLETS can be effectively used across a whole spectrum of machines. This product is designed to be used manually or through a machine's automatic cleaning system to remove tannin stains, prevent component blockage and to ensure a hygienically clean machine.

Our intensive focus on performance delivers a unique product providing the following significant benefits:

- **ONE SIZE FITS ALL BREWERS*** – Slimline tablet design ensures that our product fits through all the major machine manufacturers tablet chutes, eliminating the need for a different tablet for each brand and type of machine. This reduces your costs and simplifies cleaning for end users.
*customer to test on all machines prior to use
- **DISINFECTANT CAPABILITY** – Product contains a disinfecting agent to ensure your machine remains hygienically clean.
- **FULLY DISSOVLES** – Unlike some cheaper and branded tablets our product fully dissolves into water eliminating the risk of blockages due to partially dissolved tablets.
- **QUICK ACTING**– One of the fastest dissolving tablets on the market ensuring that no matter how short your clean cycle our product fully dissolves into water eliminating the risk from partially dissolved tablets.
- **NON DAMAGING** – Product will not damage or degrade machine components.

Open up machine and insert tablet into brewer unit and run cleaning cycle.

Client Testimonial

MACHINE DISTRIBUTOR

'I used to use a different tablet for each machine brand that I supplied, which was expensive and complicated for my operators and end users. Now with Bioguard's brewer tablet I just have one tablet for all my machines which is simpler and more costs effective.'

VENDING OPERATOR

'The automated cleaning cycle times are different for the various machines we use. If the incorrect tablet was used on the machines they would not fully dissolve and block the brewer unit. With the Bioguard tablet I don't need to worry.'
