LIQUID BREWER CLEANER

Performance Focus

Industry-leading research and development, combined with extensive testing ensures that our LIQUID BREWER CLEANER can be used effectively across a whole spectrum of machines. This product is designed to be used on hot drinks vending machine brewer units such as a king brewer unit, to remove tannin stains, prevent component blockage and ensure a hygienic machine.

Our intensive focus on performance delivers a unique product providing the following benefits:

- **EASE OF USE** – Product is supplied in easy to use dosing bottles to ensure that the correct amount of product is used on each clean eliminating product wastage and incorrect cleaning regimes.
- **SUPERIOR CLEANING ACTION** – Product is formulated to provide a superior cleaning action which results in higher levels of machine hygiene and reduced cleaning times.
- **NON DAMAGING** – Product will not damage or degrade machine components, unlike the more traditionally used aggressive chemicals.
- **ENVIRONMENTALLY FRIENDLY** – Proven by independent environmental audits to be non-toxic, biodegradable and non accumulative in the eco system.
- **FAST ACTING** – Product designed to work within 5-10 mins depending on dirt levels, enabling the cleaning and hygiene process to be carried out in the time required to refill the machine.

Available Products

DISPENSING OPTION	PACK SIZE	CODE
